

Make your deposits compliant the easy way with our Deposit Cap Calculator

Add your deposits to the calculator. The calculator will then automatically calculate how much you should repay to the tenant for the deposit to be compliant 

To reduce the amount of deposit you hold, **add an amount to the calculator** telling us how much you want us to repay to the tenant

When you're ready, **send it to depositcap@depositprotection.com** and we'll take care of the rest in time to meet the legislative deadline 

We'll send the tenants a **cheque** for the amount you've told us to repay

We'll **update the tenancy** to reflect the new deposit, including the deposit certificate 

You won't need to reissue Prescribed Information as it is not a legislative requirement

We'll contact you once the process is complete, with confirmation that the changes have been made 

We'll also send you a separate email for each deposit changed for you to **reconcile your reporting**
