

Make your deposits compliant the easy way with our Deposit Cap Calculator

Add your deposits to the calculator. The calculator will then automatically calculate how much you should repay to the tenant for the deposit to be compliant 

To reduce the amount of deposit you hold, add an amount to the calculator telling us how much you're repaying the tenant

When you're ready, send it to depositcap@depositprotection.com and we'll take care of the rest in time to meet the legislative deadline 

You'll then need to repay the tenants the amount calculated

We'll update the tenancy to reflect the new deposit. If you'd like a new deposit certificate, please get in touch at contactus@depositprotection.com 

You won't need to reissue Prescribed Information as it is not a legislative requirement

We'll contact you once the process is complete, with confirmation that the changes have been made 

We'll also contact the tenant to let them know that the changes have been made
